Description

In this webinar we will share tips to systematically and methodically scan every time you provide a limited obstetric ultrasound. We will look at the causes, symptoms and presentation of ectopic pregnancy in ultrasound and how to assist a client when you are unable to confirm an intrauterine pregnancy. We will also identify how fear can negatively impact our ability to think clearly and how to overcome that fear with knowledge and precision. This webinar will support you in providing confident and compassionate care to the women and families we serve.
