This training offers 1.0 contact hours for nurses who meet all requirements. Heartbeat International is an approved provider through the California Board of Nursing, Provider Number 16061.

Description

Up until recently, we have focused greatly on the technical aspect of the ultrasound scan in the pregnancy center, leaving perhaps the most impactful images until the very end of the exam. [The LOVE Approach Method to Scanning Limited Obstetrical Diagnostic Medical Ultrasounds](#) brings the most important aspect of the exam to the forefront. Within the first few minutes, this method shows the mother her baby's heartbeat bringing the focus to the life within. This webinar will focus on placing emphasis on the wholeness of the scan to include not only the technical aspect but also the spiritual aspect.
