

HEART Online Leader Training

Brand: Heartbeat Academy
Product Code: 130

Price: \$24.95

Description

For more than 30 years the H.E.A.R.T. program has been used to transform lives, bringing wholeness and healing to men and women who have experienced the pain of abortion. Now with the HEART Online Leader training, you can walk through the key areas of training needed to be a successful HEART Leader.

In this online training, students will:

- Identify key leadership qualities needed to lead a HEART program successfully.
 - Demonstrate group facilitation techniques
 - Define and discuss qualities in program participants that may hinder or encourage the group process.
 - Identify and discuss basic components of group sessions.
 - Identify complex issues that may go beyond the scope of HEART and locate additional resources for referral in these instances.
- Define and Discuss: Post-Abortion Syndrome, Defense Mechanisms, Fear, Anger, Forgiveness, Self-Worth, Depression, Guilt, Grief, Self-Reconciliation, Shame, Self-Image, and Healing.

*This training is to be used for individuals interested in leading a H.E.A.R.T group with the H.E.A.R.T. participant manual. It is not intended for HEART participants. Heartbeat International strongly recommends purchasing a copy of the H.E.A.R.T. Leader Guide to be used as you go through the training, and for ongoing reference once the training subscription expires.

Objectives

- Identify key leadership qualities needed to lead a HEART program successfully.
- Demonstrate group facilitation techniques
- Define and discuss qualities in program participants that may hinder or encourage the group process.
- Identify and discuss basic components of group sessions.
- Identify complex issues that may go beyond the scope of HEART and locate additional resources for referral in these instances.
